- a **separate waiting room** for parents to comfortably wait for the children during the party

ATTRACTIONS

Splattering (normal or fluo)

Create special paintings, splattering paint on canvas! It's a perfect way to express your creativity and emotions - without rules or restrictions! You can experiment with various tools, such as waterguns, paint brushes, straws, syringes, or even your own hands. Play with colours and create unique compositions. Splattering paint is a relaxing and fun art form for open expression. Check what you can paint!

📅 Required age: 5+ 🧑‍🎨 Nr of guests: up to 24

Electric and manual tables (normal or fluo)

The technique of painting abstract artworks on spinning tables is a unique way to create extraordinary color compositions. How does it work exactly? A canvas is placed on a flat, rotating table, and paint is then poured onto it. The movement of the table is controlled using a controller or a crank, allowing the paint to spread under the influence of centrifugal force, forming fascinating patterns. This method enables the creation of unique and original abstract paintings, full of dynamic movement and rich colors. Additionally, each electric table is equipped with a suspended pendulum, allowing for the creation of symmetrical patterns. Each room also offers extra tools—such as sieves, funnels, and rollers—which help achieve even more interesting effects.

📅 Required age: 10+ 🧑‍🎨 Nr of guests: up to 12

NORMAL OR FLUO SESSION?

Each attraction is available in either normal light or fluorescent light.

FLUO SESSION

It's a true sensory delight - the paint you use comes alive under ultraviolet light, creating surprising effects. You'll make unique paintings that shine in UV, giving art a completely new dimension. During FLUO SESSION, we turn off the lights, and ultraviolet lamps illuminate paint colours, creating an extraordinary show. Music playing in the background creates a unique experience. It's a moment when art turns into magic.

NORMAL SESSION

Full control over your work of art, which you take home! Painting in natural light allows intentional choice of colours, perfect for your composition. You can choose from 9 colours, but nothing is stopping you from experimenting and creating your own, unique shades. During a normal session, you can splatter, paint, or spin - without limits, let your imagination and creativity run wild!
