

SCHOOL AND KINDERGARTEN TRIPS

Paint however you like – have more fun than ever!

Would you like to take your students on an unusual and colorful adventure? Do you want to organize an unforgettable trip that will spark their imagination and creativity? Or maybe you just want to have fun and create something surprising together?

In our space, children and teenagers can spend time creatively by painting using the Action Painting technique - splashing, pouring, spinning - just having fun! It's a great opportunity to experiment with colors, shapes, and textures. No skills are needed, just a bit of imagination and courage.

ATTRACTIONS

Splattering (normal or fluo)

Create special paintings, splattering paint on canvas! It's a perfect way to express your creativity and emotions - without rules or restrictions! You can experiment with various tools, such as waterguns, paint brushes, straws, syringes, or even your own hands. Play with colours and create unique compositions. Splattering paint is a relaxing and fun art form for open expression. Check what you can paint!

Required age: 4+ Nr of guests: up to 70 Price : 75zł

Electric tables (normal or fluo)

Abstract painting technique on electric spinning tables is a remarkable way of creating colorful, unique compositions. What is this art form about? You pour paint on canvas placed on the flat, spinning table. Thanks to the controller with a two-step speed regulation, you put the canvas into circular motion - centrifugal force makes the colours spread freely, creating effective, dynamic patterns. Additionally, each workstation is equipped with a pendulum hanging above an electric table, which allows the creation of harmonic, symmetric shapes. Participants also have access to various tools, such as strainers, funnels, or rollers, which allow for even more creativity.

Required age: 10+ Nr of guests: up to 10 Price : 75zł

NORMAL OR FLUO SESSION?

Each attraction is available in either normal light or fluorescent light.

FLUO SESSION

It's a true sensory delight - the paint you use comes alive under ultraviolet light, creating surprising effects. You'll make unique paintings that shine in UV, giving art a completely new dimension. During FLUO SESSION, we turn off the lights, and ultraviolet lamps illuminate paint colours, creating an extraordinary show. Music playing in the background creates a unique experience. It's a moment when art turns into magic.

NORMAL SESSION

Full control over your work of art, which you take home! Painting in natural light allows intentional choice of colours, perfect for your composition. You can choose from 9 colours, but nothing is stopping you from experimenting and creating your own, unique shades. During a normal session, you can splatter, paint, or spin - without limits, let your imagination and creativity run wild!
